

Battery Order Form

CICADA Queensland provides a cochlear implant battery service. The cost is \$38 per box.

The total amount for the number of boxes ordered does not include the cost of postal delivery.

Orders for one box only will be posted as 10 packs inside a C5 envelope and the postage cost is \$3.00. This brings the total amount to \$41 for both the batteries and postal delivery.

If you wish to order more than 1 box, then:

- Standard delivery postage for 2 or more boxes costs \$9.20.
- Express Post for 2 or more boxes costs \$12.20.

We ask that you email our administrator at batteryorders@cicadaqld.com.au to confirm the quote on postage before making a full payment.

Remember that if you are an NDIS participant, you can claim the cost of batteries purchased from us. There are two choices when making payment:

- pay the invoice yourself and we will provide a receipt. You can then give the receipt to your NDIS planner for reimbursement.
- give the invoice directly to your NDIS planner and NDIS makes the payment.

Once the invoice is paid, the batteries will be sent to you.

	No. of boxes	Total Amt
One box (10 packs) of 60 iCellTech 675 batteries is \$38.00 each
