

USB Wristband Order Form

CICADA Queensland offers a MEDICAL ALERT! USB wristband as a portable device for storing your medical information, including cochlear implant/s details for CI recipients, in the event of an emergency. You have a choice of five (5) colours: brown, orange, purple, blue and green (as shown below).

Your medical information should include:

- photocopy of your driver's license or other ID
- next of kin details
- GP and specialist details
- any medical issues, and
- list of current medications.

If a CI recipient you also need to include:

- clinic and audiologist details
- brand of cochlear implant
- whether single or bilateral (state which side if single), and
- if an MRI is incompatible for your CI.

You can keep this medical information up-to-date by updating or replacing document saved on the USB wristband. It is recommended that this document is saved as a password protected PDF so that it cannot be accidentally changed by others.

You could also write your name and phone number on a small sticker and place on the inside of the wristband, in case the wristband is misplaced when removed.

One (1) USB wristband cost \$13.00, plus \$1.10 postage for a total cost of \$14.10.

Two or more (up to 10) USB wristbands cost \$13.00 each plus postage cost of \$2.20.

If purchased at a CICADA Queensland event the cost is \$12.

Delivery time for orders on payment is within 7 working days.

Name:		
Postal address:		
Suburb:	State:	P/C:
Colour of wristband/s (choose from drop down list)		
Total amount (choose number ordered and associated total cost from drop down list)		

I wish to pay by Cheque Money Order Electronic Funds Transfer
